Gas propelled car exploded in Kramfors, Sweden

16/11 2016 in Ry, Kramfors.

At 19.20 the High-Coast Rescue Service were alerted to a car fire in Ry, in the municipality region of Kramfors.
The car had started to burn and then it exploded, it was a gas-propelled car. We took a defensive position and allowed it to burn out before finishing the intervention. It was parked in a quite remote position and there was no risk for fire spread. We were lucky and nobody was injured, Mikael Lundberg, officer on duty at the High Coast Rescue Service.
