

It's true, I really like to live in Bienenbüttel  
loving, the smell of woods & greens,  
The fog above our river Ilmenau  
Loving delicious home country potatoes  
with sour cream,  
Knowing about pawing in cow dump,  
And where tractors are going slow.  
I am glad to meet easy people,  
saying their good mornings and hello's,  
Loving discussions about ordinary things.  
Waiting patiently for high speed internet,  
Believe in humans, who loves the future,  
kids & seniors,  
Enjoying work and celebrations,  
As well as the variety of my natives,  
It's true - all these - has never been boring.

**We are thinking too much about things we miss and not have - instead we do already have. Let's try to enjoy those we already got**

With this in mind let's celebrate a Merry Christmas together!

For 2025: lots of health, peace - for yourself and others - as well as happiness, love and confidence in your life!

kindly wishes,  
Loni & Klaus - Georg (Pilo) Franke

*Thank You*
